8. MOTION (HON. LEONARD KIRUI)

THAT, Aware that Article 43 of the Constitution provides for, among other matters, the right to highest attainable standard of health which include the right to healthcare service; further, aware that lifestyle diseases such as cancer, diabetes, hypertension among other diseases have been on the rise in Bomet County due to lack of proper preventive strategies; Noting that primary prevention and screening for chronic diseases are considered the best strategy to curtail the rise; Cognizant that big percentage of residents of Bomet County are economically disadvantaged thus may not afford screening services offered at a fee; concerned that continuous absent of preventive strategies is likely to transfer economic burden of treatment and management of the chronic diseases to an already financially challenged population: **NOW THEREFORE**, This Assembly resolves that the County Government through the department of Health services develops a comprehensive annual program for conducting comprehensive and exhaustive screening and other primary prevention services for cancer, diabetes, hypertension and other chronic diseases in all wards on a rotational basis.
