(Hon. Charles Langat)

**THAT**, aware that County Government under section 36(2) of the Urban Areas and Cities Act 2011 is required to initiate an integrated urban planning process that will ensure that our markets and urban centres are upgraded into towns and municipalities; also aware that in order to upgrade those market centres into such towns and municipalities there must be inter alia demonstrable economic, functional and financial viability, the existence of an integrated development plan and the capacity to effectively and efficiently deliver essential services to its residents; also aware that the existence of infrastructural facilities, including but not limited to roads, street lighting, refuse disposal mechanisms, health facilities, markets, fire stations and an adequate capacity for disaster management will encourage investments and growth of such markets and urban centres; deeply concerned that lack of these essential infrastructural facilities has retarded growth of these markets and urban centres within our
