**THAT**, Aware that Article 43 of the Constitution provides for, among other matters, the right to the highest attainable standard of health which includes the right to health care services; further, aware that lifestyle diseases such as cancer, diabetes, hypertension among other diseases have been on the rise in Bomet county due to lack of proper preventive strategies; Noting that primary prevention and screening for chronic diseases are considered the best strategy to curtail the rise; Cognizant that big percentage of the residents of Bomet county are economically disadvantaged thus may not afford screening services offered at a fee;

Concerned that continuous absence of preventive strategies is likely to transfer economic burden of treatment and management of the chronic diseases to an already financially challenged population: NOW THEREFORE, This Assembly resolves that the County Government through the department of Health services develops a comprehensive Annual program for conducting comprehensive and exhaustive screening and other primary prevention services for cancer, diabetes, hypertension and other chronic diseases in all wards on rotational basis.

#### 7. MOTION (Hon. Leonard Ngeny)

**THAT**, aware that Article 54 of the constitution enumerates the entitlements of persons with disability including rights to reasonable access to all places and public transport, rights to be treated with dignity and respect, right to access educational institutions and facilities for persons with disability; Further aware that Section 21 of the Persons with Disability Act, 2013 provides that Persons with disabilities are entitled to a barrier-free and disability-friendly environment to enable them have access to buildings, roads and other social amenities, and assistive devices to promote their mobility; Noting that most County Government office buildings do not have disability friendly equipment therefore denying them their constitutional rights to access all places; Cognizant that failure to provide disability friendly facilities is tantamount to serious violation of the rights of persons with disability and by extension an affront to the constitutional provisions;
